

1. skup neuroradiologa Hrvatske s međunarodnim sudjelovanjem

Split
11-13. travnja 2014.

Lokacija: Radisson Blu, Put Trstenika 19, Split

Organizator:

Sekcija za neuroradiologiju
Hrvatskog društva radiologa
Hrvatski liječnički zbor

Organizacijski odbor

Marko Radoš,	Predsjednik Sekcije
Goran Pavliša,	Potpredsjednik
David Ozretić,	Glavni tajnik
Ante Buča,	Lokalni organizator
Krešimir Dolić,	Lokalni organizator

Konačni program

Petak, 11. travnja

18,00h Registracija

Subota, 12. travnja (jutro)

9,00h Uvodna riječ

9,10-10,40h “Refresher” predavanja (15 minutna predavanja)

Moderatori: prof.dr.sc. M.Radoš, prof.dr.sc. A.Buča

- Dolić K. Traumatic brain injury
- Antulov R. White matter tract anatomy
- Zadravec D. MRI of multiple sclerosis
- Špero M. Degenerative, exogenous toxic and metabolic diseases
- Pečarič Meglič N. Imaging in epilepsy patients
- Pavliša G. Imaging of CNS neoplasms

10,40-11h Pauza za kavu

11-13h Pozvana predavanja (20 minutna predavanja)

Moderatori: prof.dr.sc. E.T.Tali, prof.dr.sc. M. Thurnher

- Tali E.T. CNS infections
- Thurnher M. Advanced imaging of spine disorders
- Šurlan Popović K. CT and MRI perfusion imaging in head and neck region
- Radoš M. fMRI in clinical practice at 3T
- Szikora I. Arterio-venous malformations – diagnosis and treatment

13-14,30h Ručak

Konačni program

Subota, 12. travnja (poslijepodne)

14,30- 17,00h Znanstvena predavanja (8 minutna predavanja + 2 min diskusije)

Moderatori: doc.dr.sc. D. Zadravec, dr.sc. R. Antulov

1. Lovrić Kojundžić S. Neuroradiological evaluation of congenital brain anomalies
2. Pećina HI, Sajko T, Hećimović H, Tripalo Bratoš A, Bedek D, Gregurić, Zadravec D. Our experience in diagnostic and therapeutic management of pharmacoresistant epilepsy
3. Glavina G. Magnetic resonance in diagnostics of central nervous system tumours
4. Špero M. Spontaneous intracranial hypotension - our experience
5. Plascak J, Makaruha K. FESS Imaging - The role of MDCT
6. Kolić K. The role of perfusion MSCT in early diagnostics of ischaemic stroke
7. Dodig D. Characterization, demographic and casuistic assessment of superficial brain hemorrhages

15,40-16,00h Pauza za kavu

Moderatori: doc.dr.sc. T. Šeruga, dr. D. Ozretić

1. Šeruga T, Jevšek M. Endovascular treatment of complex unruptured aneurysms of supraclinoid segments of internal carotid artery with flow diverter devices
2. Šeruga T, Jevšek M, Sauperl H. Treatment of giant dissecting aneurysm of V3 segment of vertebral artery by direct ultrasound guided puncture and parent artery occlusion
3. Jeromel M. Percutaneous vertebroplasty for pathological vertebral compression fractures
4. Dragičević D. A case of acquired right-sided subclavian steal syndrome successfully treated with stenting using brachial approach
5. Kalousek V, Čulo B, Zadravec D. Imaging and endovascular treatment of two challenging cases
6. Gardijan D, Ozretić D, Radoš M, Pavliša G. Embolization of brain pial A-V fistula in 33 year old man

20,00h Večera

Konačni program

Nedjelja, 13. travnja

9,00 Okrugli stol: Ishemijski moždani udar

Sudionici: Chapot R, Dragičević D, Jeromel M, Jevšek M, Ozretić D, Poljaković Z, Radoš M, Szikora I, Šeruga T, Švigelj V.

Chapot R. Acute ischemic stroke management

Anterior circulation stroke: Švigelj V. Neurological treatment

Jeromel M. Endovascular treatment

10,30-10,50 Pauza za kavu

Posterior circulation stroke: Poljaković Z. Neurological treatment

Radoš M, Ozretić D. Endovascular treatment

12-12,30

Sastanak Sekcije za neuroradiologiju HDR-a

Završna riječ
